

DAILY LOUISVILLE DEMOCRAT.

VOLUME XVII.

LOUISVILLE, KENTUCKY: WEDNESDAY MORNING, JANUARY 16, 1861.

NUMBER 155.

All Sorts of Paragraphs.

A REMINISCENCE OF THE ITALIAN REVOLUTION.—A curious story is told of the entry of the Piedmontese into Perugia. When they were entering the town (the citadel being then still in possession of the marchese), a priest, who had given his robes for a layman's dress, took a gun, and stationed himself at a window. A Piedmontese regiment came marching past, and at its head was the drum-major, a magnificent fellow, with a drum that was richly embroidered, the like of which was not to be found in the world of those of his class. The priest, who probably took the gun for the Colonel, fired and killed him. The soldiers broke into the house, and after a long search found the assassin concealed under a heap of garments in the cellar. A drum-head court-martial was instantly formed; two or three soldiers had seen him fire; there could be no doubt of his guilt, and he was condemned to be shot. The drum-major had been a good soldier, and was obliged to die. It was a sad and o'er-circumstance that while the court-martial was sitting it was disturbed by the enemy's fire, and obliged to change its place. The priest was condemned to death and immediately so.

CHIEF JUSTICE TANNEY AND THE INAUGURATION.—At a dinner given by the President recently, to the Supreme and other judges of the District, it is authoritatively reported that Chief Justice Tanney said if alive, he would administer the oath of office to Lincoln if he had to go to Springfield to do it! This was worthy of the patriotic and the chief justice officer of the Republic, and shows that this able man has still preserved some of the fire of the immortal Jackson, who gave him the distinguished position he now occupies. The rumors are still prevalent here that a secretly-organized plot was hatched in Washington to bring the Constitution to a standstill by the Constitution to count the votes for President, with the intention of destroying the legal returns, so that Lincoln cannot be lawfully proclaimed. The President elect should, however, be safe, for he will be looked upon as the wisest traitor, but unlikely as such a proceeding as this is to happen, preparations have been made to meet it squarely.—*Wash. Cor. West Chester Republican.*

INTERSTATE SLAVERY.—Place on a sheet of white paper a piece of blue silk about four inches in diameter, in the sunshine; cover the center of this with a piece of yellow silk about three inches in diameter, and the center of this with a piece of pink silk about three inches in diameter. Place the center of the pink silk again over the center of the green silk about one inch in diameter; then cover the center of the green silk with a circle of indigo about half an inch in diameter. This will make a small circle make a black dot with a pen. Then look steadily for a minute on this central spot, closing your eyes, hold your hand about an inch distant before them, and you will appear to see a small circle of colors that imagination can conceive, which colors will appear not only different from the colors of the silk, but will keep perpetually changing.

HOW THE APPOINTMENT OF MEMBERS OF CONGRESS IS MADE.—When the census of the United States is taken, says the Washington States, it is the duty of the Secretary of the Interior to divide the whole number of free persons with three-fifths of the slaves by two hundred and thirty-nine, the present number of members, and the products shall be the number of members.

The Secretary of the Interior shall then proceed in the same manner to ascertain the representative population of each State by the ratio already determined by him as above, and the result of this last division shall be the number of representatives appointed to each State.

The loss in the number of members caused by the fractions remaining in the several States will be compensated for by assigning to each State a number of the larger fractions, an additional member, each for the fraction, as may be necessary to make the number of representatives two hundred and thirty-three.

The ratio of representation is something over 93,000, as near as can be ascertained, the total population of the States and Territories, by the census of 1860, is 31,000,000; therefore the ratio for the next ten years will be about 135,000.

UNITED STATES CENSUS ON THE SOUTHERN COUNTRIES.—And the following in the *Savannah News* of Monday:

Captain Horner, of the brig *Haller Jackson*, which arrived here Saturday, reports that on the night of the 3d instant, about mid night, he saw a large vessel lying to within 15 miles, with no lights set. He took close by, when the vessel showed lights, but after passing it the lights were taken down again. Also, on the night of the 4th, Captain Horner, reports, lying steamship *Yankee*, running in and out between the land and light. The last he saw of the vessel she was going out to sea with a large light set. Captain Horner is of the opinion that the vessel was a steamer, and the *Yankee* was a steamer.

A letter received by the editor of this paper yesterday, dated Montgomery, Alabama, 4th instant, says: "We are advised that there are two or three steamers off Pensacola."

The *Prince* of Wales has been cheered out of the affection of his dog, and by the people of Newfoundland.

When on board ship a boy was not to look after him. The morning the lights were taken down again. Also, on the night of the 4th, Captain Horner, reports, lying steamship *Yankee*, running in and out between the land and light. The last he saw of the vessel she was going out to sea with a large light set. Captain Horner is of the opinion that the vessel was a steamer, and the *Yankee* was a steamer.

A letter received by the editor of this paper yesterday, dated Montgomery, Alabama, 4th instant, says: "We are advised that the dog would not eat, because the boy did not feed him.

The boy said his sailor's clothes, and thinks he is a gentleman off.

A KING OFFERED TO FIGHT AND DISPLAY.—Since the return of King Victor Emmanuel to the throne of Italy, many anecdotes about his sayings and doings at Palermo have been told. He was in great wrath at the horses being taken out of his carriage and his being drawn along by the people, and so angry at the conduct of the crowd that he wished it to be understood that the brute beasts were to remain brute beasts, and the men to remain men. He further said, that he was neither a *da* nor a *dam*, and to each of the horses commanded accordingly to such characters.

THE SECRETARIALTY OF THE INTERIOR.—General Dix, Postmaster of New York, is here. Simultaneously with his departure from New York comes a rumor that the Secretary of the Interior Department has been appointed to the office. He came here on the President's invitation, but was satisfied that at no time to day the President had not concluded to whom to offer the Secretaryship above referred to. Nevertheless, the *Times* of New York, has it on good authority, that the post is to be determined on in Cabinet, to-morrow, or to-day, if it is General John A. Dix, the selection will be a foregone conclusion.

Dr. George Bennett.—A naturalist, who has published an account of his twenty-two years residence in Australia, gives a description of the grandest of all birds, the Kingbird, the largest and greatest. It grows to be five feet long and is so rare that the doctor has seen but four skins of the bird during his residence there. It is very graceful, has large and brilliant eyes, a beak of great brilliancy of plumage, and is easily distinguished.

ARRIVALS FROM CHARLESTON.—The wife of Major Anderson arrived in this city on Tuesday and left this morning for New York.

Last night Mrs. Foster and Mrs. Doubtless, wives of officers, Fort Sumter, arrived by the Southern boat. We hear that the Charleston people refused to harbor them in that city, but can hardly believe this of a people so hospitable as the Southerners.

THE RIGHT COURSE.—The Legislature of North Carolina—the "good old State"—in the act of calling a convention of the people, decrees as follows:

"No ordinance of said convention, dissolving the connection of the State with the Federal Government, or connecting it with any other, shall have any force or validity, until it is approved by the general assembly of the State for members of the General Assembly, to whom it shall be submitted for their approval or rejection."

THE NAVIGATION OF THE MISSISSIPPI.—The Legislature of Indiana has passed resolutions to the effect that under no circumstances can the right of Indiana to the free navigation of the Mississippi be surrendered; resolving to maintain her commerce upon that river untrammeled, and pledging the people of the State in support of the rest of the whole Northwest in this regard. This was in reference to the rumor action of Mississippi at the Capital, Washington.

XXXXV Congress—Second Session.

WASHINGTON, Jan. 15.—Home—Among
other preliminary business, Mr. Harris of
Maryland, presented a memorial signed by
12,000 citizens of Baltimore, irrespective of
party, praying for the adoption of the Crit-
tenden bill, and for the admission of the
Territory of Kansas.

The House went into Committee of the
Whole.

with the hope that such measures might be
brought forward by those who have the
power to control the question, as would
secure the South of future security.

The Republicans have held sufficiently
and declared that they have no terms of
peace to offer.

Mr. Stanton vindicated the Methodism
of the South, and the South, in the South.
